

trees and timber in pdf

There are over 150 species of timber which are produced in India. Following are the chief varieties of timber (trees) which are used for engineering purposes in India which implies life is better due to the presence of this wood in India:

List of Indian timber trees - Wikipedia

Trees, and their derivative products, have been used by societies around the world for thousands of years. Contemporary construction of tall buildings from timber, in whole or in part, suggests a growing interest in the potential for building with wood at a scale not previously attainable.

The wood from the trees: The use of timber in construction

Lumber (American English; used only in North America) or timber (used in the rest of the English-speaking world) is a type of wood that has been processed into beams and planks, a stage in the process of wood production.
